1. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per independent claim 1, the terms "**at least one bit**" (lines 2-3) is indetermined. If "**at least one bit**" equal ONE, then the phrase "said plurality of logic elements ... including bit in **one of a bit position before a leading zero and before a leading one of the sum of said mantissas**" (lines 4-6) is meaningless. Clarification is requested. Similarly noted independent claim 3.

As per claim 3, line 5; "a bit position before a leading zero and a leading one..." should be --a bit position before a leading zero and before a leading one... --. (See independent claim 1, line 5). Similarly noted independent claim 13, line 9.

2. Claims 1-18 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Cited references are art of interest.

4. The following is an examiner's statement of reasons for allowance: the recorded references do NOT teach or suggest the detail of (1) "said plurality of logic elements to generate and transmit a predictive bit stream including bit in one of a bit position **before a leading zero and before a leading one of the sum of said mantissas**" and (2) "counter

to generate a predictive count equal to a number of bits between a first bit generated of the predictive bit stream and said indicating bit in the predictive bit stream..." features as recited in independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
